Andrew G. Ayars, M.D., nasal/sinus disease, severe asthma, immunodeficiency; Allergy Clinic at Eastside Specialty Center, 3100 Northup Way, Bellevue, 425.646.7777
Allergic rhinitis is a common disorder that is strongly linked to asthma and conjunctivitis. It is usually a long-standing condition that often goes undetected in the primary-care setting. The classic symptoms of the disorder are nasal congestion, nasal itch, rhinorrhea and sneezing. A thorough history, physical examination and allergen skin testing are important for establishing the diagnosis.
