... Products Instructions Center – RovSun.com • There
are two basic types of distiller systems: manual or
automatic. Manual water distillers usually produce 1
gallon of water at a time. After the first gallon of water
is produced, you manually refill the system to produce
the next gallon of water. Automatic water distillers are
attached to a water line to continually produce pure
water. Water Distillers – Automatic & Countertop Water
Distiller ... distilled water in the humidifier. • Avoid
using tap water, because this has too high of a mineral
content and will create white dust around the
humidifier. • Do not use hot water. • Do not fill above
