It is also known as corpus-based studies. Definition and Examples of Corpus Linguistics If, for instance, the corpus is be used primarily for grammatical analysis (e.g. the analysis of relative clauses or the structure of noun phrases), it can consist simply of text excerpts rather than complete texts. On the other hand, if the corpus is intended to permit the study of discourse features, then it will have to contain complete texts. Planning the construction of a corpus (Chapter 2 ... Summary. In describing the complexity of creating a corpus, Leech (1998: xvii) remarks that "a great deal of

spadework has to be done before the research results [of a corpus analysis] can be harvested.”.

Creating a corpus, he comments, “always takes twice as much time, and sometimes ten times as much effort” because of all the work that is involved in designing a corpus, collecting texts, and annotating them.
