Name Grammar Oxford University Press The syntax of names is determined by three main notional functions: identification, as arguments in predications; address, as vocatives; and nomination ('name-giving'), which establishes the identificatory capacity of names. Grammar of Names - Oxford Scholarship This book is the first systematic account of the syntax and semantics of names. Drawing on work in onomastics, philosophy, and linguistics the author examines the distribution and subcategorization of names within a framework of syntactic categories and considers how the morphosyntactic behavior of names connects to their semantic roles in
