Transportation Engineering:
Chakroborty ... Transportation
engineering or transport
engineering is the application of
technology and scientific principles
to the planning, functional design,
operation and management of
facilities for any mode of
transportation in order to provide
for the safe, efficient, rapid,
comfortable, convenient,
economical, and environmentally
compatible movement of people
and goods transport. The planning
aspects of transportation
engineering relate to elements of
urban planning, and involve
technical forecasting Transportation
