Science And Civilisation In China Science and Civilisation in China is an ongoing series of books about the history of science and technology in China published by Cambridge University Press. It was initiated and edited by British historian Joseph Needham. Needham was a well-respected scientist before undertaking this encyclopedia and was even responsible for the "S" in UNESCO. To date there have been seven volumes in twenty-seven books. The series was on the Modern Library Board's 100 Best Nonfiction books of the 20th century. Science and Civilisation in China - Wikipedia Science and Civilisation in China, Volume 3: Mathematics

But while all the physical and some of the simpler biological sciences in China and Europe have long ago fused into one, this has not yet happened with the medical systems of the two civilisations.1As we shall later see, much in Chinese medicine cannot yet be explained in modern terms, but that means

neither that it is valueless, nor that it lacks profound interest.
